Model Year 2010 PZEV Warranty

The PZEV warranty is the Partial Zero Emissions Vehicle warranty. What this warranty does is provides warranty coverage for 15 years or 150,000 miles, from the original in service date of the Volvo, for all of the emissions components. This warranty has been in effect since 2003 for certain states. In order for the car to qualify for the PZEV Warranty, it needs to have the specific engine code that was certified as a partial zero emissions vehicle in a certified PZEV state. These qualifying states and engine codes vary from year to year. If you purchase a PZEV Volvo and then move to a state that is not a certified PZEV state, you will no longer have the PZEV Warranty coverage.

Please see below for the engines, states, and covered components for Model Year 2010:

Engine VIN codes 39 & 96 are eligible if sold and registered in California, Massachusetts, Maine, Vermont, Connecticut, Rhode Island, New Jersey, and New York

Covered Emissions Components:

- Fuel and Ignition System:
 - Engine Control Module Hardware, Engine Control Module Software, Fuel Pump including Pressure Regulator, Fuel Pump Electronic Module (PEM), Fuel Filter, Fuel Injectors, Fuel Rail Pressure and Temperature Sensor, Intake Air Temperature Sensor, Ambient Temperature Sensor, Manifold Absolute Pressure Sensor, Mass Air Flow Sensor, Electronic Throttle Module, Oxygen Sensor, Brake Control Module (manual transmission models only), Spark Plugs, Knock Sensor, Crankshaft Position Sensor, Camshaft Position Sensor, Central Electronic Module, Intake Manifold, Throttle Position Sensor, Idle Speed Control Valve, Engine Coolant Temp Sensor, Ignition Coil/Power Stage, CVVT Timing Unit, CVVT Solenoid Valve, Crankcase Pressure Control Valve
- Engine Cooling System:

- Coolant Thermostat, Engine Coolant Temperature
- **Crankcase Emission Control System:**
 - Oil Trap with Crankcase Pressure Regulator, PCV Connections, Calibrated Orifices, PTC Nipple, Intake Manifold Nipple, Fresh Air Hose, Vacuum Nipple, Coolant Heated
- **Evaporative Emission Control System:**
 - EVAP Carbon Canister, EVAP Leakage Diagnosis Pump, Purge Valve, Canister Closing Valve, Fuel Filler Cap, Fuel Tank, Fuel Tank Pressure Sensor, Leakage Detection Pump
- **Catalyst:**
 - Catalytic Converter, Exhaust Manifold
- **Turbocharger:**
 - Turbocharger Assembly including Wastegate, Turbo Control Valve, Charge Air Cooler
- **Automatic Transmission:**
 - Transmission Control Module Hardware and Software
- **Continuously Variable Valve Timing:**
 - Timing Device, Solenoid Valve
- **Miscellaneous items used in above systems:**
 - Hoses, clamps, fittings, tubing, sealing gaskets or devices, pulleys, belts,

fuel lines, wiring harnesses and mounting hardware and electronic controls (all models) used with the components listed above.
