2011 S60 T6 AWD IPD STAGE 3 PROJECT CAR

Now's your chance to own one of ipd's most unique project cars. ipd's 2011 S60 T6 AWD has thousands of dollars in upgrades. Everything has been customized from the ground up. This project started at Galpin Auto Sports in California. GAS painted the exterior in their custom pastel blue paint. They outfitted the S60 with front and rear R bumpers including a new grille and rear diffuser. The S60 boasts one-of-a-kind interior. GAS installed custom blue leather seats with French stitching and piping to match the exterior paint. A custom suede headliner and dark navy carpets really compliment all the features and detail.

After ipd brought this vehicle into their stables, a few additional changes were made. A complete Stage 3 turbo kit was installed and this includes an ipd/MTE custom turbocharger, ECU upgrade and fuel system. ipd also used this vehicle to develop a full stainless steel exhaust system along with many suspension upgrades. ipd designed and installed a matte black top body wrap with a few contrasting accents. ipd drastically changed the look of the vehicle by adding a set of 20" Rotiform RSE wheels.

Exterior:

- Custom Pastel Blue Paint by Galpin Auto Sports California
